**SAVE TIME &
MONEY WITH
SINGLE HANDED
CARE PRODUCTS
AND TRAINING...**

Single handed care brings greater levels of resident dignity and independence while reducing staffing costs, enabling a single carer to maintain the same care levels that previously required two carers.

Did you know around 40% of residents receiving care from two or more carers could be suitable for single handed care practices?

Freeway Raiser

This versatile platform is the perfect flexible short distance transfer solution for residents who need assistance with sit to stand mobility.

The robust climbing frame aids positioning and can be used with wheelchairs, toilet and shower chairs.

Key Benefits and Features

- Lightweight and Easy to Manoeuvre
- Soft and wide padded leg support for added comfort
- Multiple grip options for both user and carer
- Raiser Strap & Safety Belt available to enable a carer to assist a resident to their feet
- Multiple fixing points for use with a variety of straps and safety belts

- Independent locking rear brakes
- Sturdy handle provides multiple grip options for both the user and the carer
- Maximum user weight: 160 kg (25 stone)
- Made in Great Britain

£499
(EX VAT)

Freeway Ladder Strap & Safety Belt

This unique strap enables a single carer to aid residents who require additional sit to transfer assistance.

The Freeway Ladder Strap and Freeway Safety Belt provide superior levels of comfort and support with the fully adjustable strap and belt which can be tailored to the residents requirements.

The handle mechanism on the Freeway Raiser provides further security and safety for belt fastening.
